## Professional Experience

---

### DATAKOM SOLUTIONS (NZ)

Auckland, New Zealand

#### Software Configuration Engineer – Finance Domain

Sept 2021 - Current

- **Designed, coded/configured, tested, and delivered** applications across multiple regions within NZ & Australia.
- **Conducted automation testing** using Gherkin scripts to validate end-to-end business processes, guaranteeing thorough quality assurance and smooth functionality throughout the entire workflow.
- **Collaborated** with cross functional domain teams to configure solutions aligning with business requirements, ensuring adherence to standardised processes for consistent outcomes.
- Worked closely with BAs, developers, configurators, product managers, and clients to deliver features in a **large enterprise environment**.
- **Automised workflows** using in-house power tools for local government councils.
- **Built strong rapport** with my customers and developed relationships local government councils by:
  - Leading weekly CRM/ERP overview and training sessions.
  - Demoing new features in external sprint reviews.
- **Optimised and remodelled** configuration to improve system performance by:
  - Identifying issues with existing configuration and implementing effective solutions. For instance, redesigned a workflow to reduce runtime/system load from 2.5 minutes to 20 seconds.
- **Developed technical documentation** through Confluence articles to support internal releases.
- Provided training for associate analysts and offered continuous advice, guidance, and mentorship on duties and best practices.

**DATACOM SOLUTIONS (NZ)**  
**Service Desk Analyst**

**Wellington, New Zealand**  
**Sept 2020 – Sept 2021**

- **Provided first-level support** for Ministry of Business, Innovation and Employment - documenting each call verifying customer information and including all troubleshooting steps.
- **Researched, resolved, and responded** to questions received via -telephone calls, emails, and call-backs in a timely manner, escalate problems to appropriate individuals.
- **Assisted in the resolution** of user and support issues among company sites to ensure timely distribution of knowledge and positive impact on user satisfaction.

---
